Profile

Full Stack Developer experienced in building production web applications with React.js and Laravel, from interface design to backend APIs and databases. Two-time first-prize winner in university project competitions and project lead of a registration system in active use at my university. Brings a cybersecurity background to writing secure, scalable and maintainable software.

Core Strengths

- Technical Leadership & Team Coordination
- System Architecture & Design
- Analytical Problem Solving
- Secure Coding Practices
- Clear Communication with Stakeholders

Tech Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design
- **Backend:** PHP, Laravel, RESTful APIs
- **Database & Cloud:** MySQL, Supabase (PostgreSQL)
- **Languages:** JavaScript, PHP, Python, Java, C#
- **Tools:** Git, GitHub, App Store Connect

Experience

Mid-Senior Full Stack Developer Jun 2026 - Present

Property Lab Myanmar · Yangon

- Develop and maintain full-stack features for real-estate web and mobile products, from React.js interfaces to Laravel APIs and databases.
- Design scalable data models and APIs, and manage production releases, including iOS App Store submissions.
- Collaborate with design and business teams to turn requirements into reliable, user-friendly features.

Software Developer Intern May 2026 - Jul 2026

Myanmar DCR Company Limited

- Contributed to software development tasks within a professional team over a 3-month internship.
- Applied version control, code review and testing practices in a real production workflow.

Projects

University Student Registration System · Project Lead 2025

- Led system architecture, development and team coordination from planning to launch.
- Delivered a system now in active use at the university, replacing manual registration workflows.

Basic Literacy Project "Wa Hta Ka La Tha" · Web Developer 2024

- Developed and managed the website for a government literacy initiative, improving accessibility and public outreach.

Achievements

First Prize, University Project Competition: Student Registration System 2024-2025

First Prize, University Project Competition: Kid's Garden learning system 2023-2024

Top 7 Challenges Solved, Myanmar Cyber Security Challenge (CTF) 2023

Education

Bachelor of Computer Science 2021 - Present

University of Computer Studies (Mandalay) · Expected January 2027
